WORK EXPERIENCE

Digital Dreams ICT   2024-2025
Web Developer

- Built multiple personal and client-based projects, including job listing platforms, portfolio sites, and service websites.
- Implemented responsive UI using Bootstrap/Tailwind and custom CSS.
- Worked with PHP and MySQL to create dynamic pages, form handlers, and CRUD features.
- Set up hosting, managed databases, and maintained site updates.

Freelance/Personal Projects   2025 - PRESENT
Web Developer

- Developed WorkLink, a job-matching web platform with features such as user registration, worker profiles, job posting, applicant management, and chat system.
- Built a complete worker dashboard including profile management, photo upload, job applications, and status updates.
- Designed and developed a Gadget e-commerce system with cart functionality, product listing pages, and user actions.
- Worked on an Investment site, implementing authentication, dashboards, and dynamic data displays.
- Integrated Google Maps embeds for location display on contact pages.
- Implemented responsive front-end interfaces using HTML, CSS, JavaScript, Bootstrap, and Tailwind.
- Built dynamic back-end features using PHP and MySQL, including CRUD operations, admin panels, and user role systems.
- Managed hosting, database setup, and deployment using cPanel, XAMPP, and GitHub.
